

## BASSO TO SING FAMOUS ARIAS

William S. Wright Has Important Role In Oratorio

WILLIAM S. WRIGHT.

To William S. Wright, Ogden basso, falls an important position in the performance of "The Messiah" tomorrow morning. Handel has given to the basso outstanding arias, such as the famous solo, "Why do the nations so furiously rage together and why do the people imagine a vain thing?"

The basso also sings another celebrated aria, "The Trumpet Shall Sound," to which Handel joined the difficult but brilliant and stirring trumpet obbligato.

Mr. Wright has mastered these difficult Handel arias from "The Messiah" and his performance of them promises to be a feature of the New Year's musical event.

Lester Hincheliff, director of the Ogden Tabernacle choir, was forced to make a last minute change in his soprano soloist Saturday. Instead of Miss Beulah Hulsh of Salt Lake, Mrs. Agnes Warner, Ogden soprano, will appear.

The soloists, then, will be the following: Mrs. Agnes Warner, soprano; Mrs. Bernice Tyree, Ogden, contralto; William S. Wright, Ogden, basso; and Howard Frazee, Salt Lake, tenor.

Albert Erickson, director of the Orpheum theatre orchestra, will be the principal violinist of the symphony orchestra which will play "The Messiah" overture and accompaniments.

The orchestra will be made up of 10 violins, two violas, three cellos, two string basses, two flutes, clarinet, two French horns, two trumpets, two trombones and tympani.

The Alhambra's big Kimball organ, with Sam F. Whitaker, Tabernacle organist, at the console, will provide the accompaniments for the recitatives of the oratorio.

The Rev. W. E. Bennett reports that arrangements have been made to add new features to the "Watch Night" program, announced last night. Magnus T. Davies, a Welsh musician of ability, who is manager of a phonograph company, has consented to bring one of their phonographs to the church, and play a number of old religious songs, such as mother used to sing. Also, since C. M. Wilton, the regular choir director and leader of the young folks, is going to be too busy with plans for the stock show of next week to be present at the service, Mr. Davies has consented to take charge of the congregational singing for that night.

The program as rearranged, will then be about as follows, beginning at 8 p. m.

Phonograph selections and congregational singing led by Magnus T. Davies.

Special messages from noted Christian leaders, read by members of the Epworth league.

Other selections by the league.

Sermon by the Rev. James E. Enman.

Old-fashioned Methodist class meeting.

Sermon by the Rev. L. A. Garrison.

Good-fellowship hour with refreshments.

Some special features of good-fellowship. Closing hour of testimony and consecration.

## WOULD LIMIT ALIENS' ENTRY

Progressive League of Women Urges Against Immigration Change

Denying that unemployment has been wiped out in the United States, and asserting that there are workers in Ogden unable to find employment, the Women's Progressive League of Ogden, has adopted resolutions protesting against any changes in the immigration laws which will mean more unemployment.

The resolution sets forth that among the members of the league there are wives whose husbands are among those unable to find employment here.

The resolution also finds the same condition to exist, and, "Whereas, Statistics prove that a general condition of unemployment exists throughout the United States, and, "Whereas, The membership of the Women's Progressive League of Ogden, is composed chiefly of wives and mothers of working men and working women themselves whose husbands are in many cases unable to find employment, and in others to work only part time at a wage insufficient to cover the rising cost of living, proving that the same condition exists locally, and,

"Whereas, The Welfare committee of the league, after careful investigation also finds the same condition to exist, and,

"Whereas, former experience has proven that the bringing in of cheap foreign labor has always tended to increase this depression; therefore, be it

"Resolved, that the Women's Progressive League go on record as being absolutely opposed to the plan of the Utah Associated Industries to influence Utah's national representatives to work in favor of any immigration law, the operation of which would increase the present unemployment and general suffering as did the so-called 'American plan.'

"MRS. RICH PORTER, "FLORA A. WILSON, "ALICE SNELL MOYER, "Committee."

## CHILD TO HEAD COUNTY BOARD

Democrats Gain Control; New Jail Most Pressing Problem

With the reorganization of the Weber county commission Tuesday morning, the control passes from the Republicans to the Democrats.

John M. Child, who was re-elected to the Democratic ticket, is slated to become chairman of the board, succeeding Moroni Skeen, Republican, who again finds himself the minority of the board.

The third member of the board is C. E. Pettigrew of North Ogden. He steps into the board as E. S. Green, the Republican member, retires.

One of the problems to face the new board will be the question of supplying the county with a new jail. Whether this shall be built as a separate structure or be part of a joint city and county building is a debated proposition.

If the commission decides that it will be better to incorporate the jail in a joint city building, then it will be necessary for the commission to call a special election of the entire county, including Ogden City, to let the taxpayers vote on whether or not they shall authorize the commission to issue bonds.

REPORTS ON AUTOS IN BANNOCK COUNTY

POCAHELLO, Idaho, Dec. 30.—Philip Stalker, Bannock county assessor, has completed his biennial report on auto license sales for 1921-22. During the year licenses were issued at his office for 246 trucks, 2897 pleasure cars, 21 dealers, 27 chauffeurs and 59 motorcycles. The total amount received from the sale of motor licenses was \$45,191.85.

In 1921 licenses were issued for 2,494 pleasure and delivery cars, 264 trucks, 18 dealers, 27 chauffeurs and 64 motorcycles. The total amount collected was \$43,779.35. A total of \$3,749.05 more than deducted in 1922 than in 1921 for the age of cars.

Practically all food products and textiles imported from America, as well as from the mainland of Asia, are distributed throughout the Philippines by Chinese wholesale houses.

## New 13th Ward Chapel To Be Dedicated Today

President Heber J. Grant will dedicate the Thirteenth ward chapel this afternoon at 2 o'clock. The chapel, which is situated at Twenty-third street and Jackson avenue, was recently completed at a cost of \$55,000.

The full program of the week of festivities has been published, but the bishopric of the ward are anxious that there shall be no misunderstanding on this point.

## VIADUCT IS JOB FOR NEXT YEAR ROAD PROGRAM NOT IN DANGER

Commissioner Skeen Says Long Delayed Work to Start in Early Summer

The long-delayed construction of a viaduct over the railroad tracks and river at Riverdale will be begun in the early summer, according to an announcement made Saturday by Moroni Skeen, chairman of the Weber county board of commissioners.

To satisfy the many inquiries about the status of the project, Commissioner Skeen went to the office of the state road commission in Salt Lake to learn that the new plans would be ready to advertise for bids by May 15.

"The new plans call for a concrete structure with dirt fill," Mr. Skeen said. "The engineers are designing a beautiful structure and one that should last forever."

"These new plans should clear up all difficulties in the way of completing the project for the finances are assured, government, railroad and county, paying for the structure."

Chairman Skeen said the county should continue its efforts to have improved the road which branches off from the concrete highway at "Death curve." This road runs along without steep grade on the west side of the river and would enter Ogden by way of the Twenty-fourth street viaduct.

The county commission says efforts should be made to get government aid for the improvement of this road. It is the logical next step in the county's program, he said.

BIRTHS

Births of 16 children, nine of which were boys, were reported to the city board of health during the week.

Francis and Ruth El Groesbeck, Scoville, Dec. hospital, boy.

Lewis Earl and Florence Gorena Brown, 3268 Pinyon, girl.

Vernon J. and Josephine W. Rollins Mordant, Dec. hospital, boy.

Eddy Blain and Kathleen J. Ferguson Chambers, 3545 Porter, boy.

S. J. and Sarah J. Wetherell Bevan, Dec. hospital, girl.

Fred George and Emma D. Kay Edson, Dec. hospital, girl.

Wm. S. and Edna A. Larson Wheeler, 475 Thirty-first, girl.

Arthur L. and Beatrice Dawson Eastman, 216 Fourteenth, boy.

Peter William and Sarah May Lawson McFarlane, 1914 Twenty-fifth, boy.

David and Jessie McDonald Saunders, 275 Wall, boy.

John and Fannie Terry Dawson, 220 Twenty-third, girl.

Vito and Jeanette diSanza Ferro, 325 Parry, girl.

John G. and Ethel Ward Willis, 1133 Twenty-sixth, boy.

A. W. and Glenn M. Poulsen Paul, 2676 Jackson, boy.

Lee and Iva Ann Farrell Halstrom, Dec. hospital, boy.

Radio now transmits photographs and finger prints for the purpose of instantaneous long-distance identification between various cities in Europe still in an experimental capacity.

## WRITE LETTERS ON HOME TOWN

Ogden Boy Answers Communication of Pennsylvania Girl

The two following letters are typical of the correspondence that is going on between school pupils of the Ogden city schools and other cities of the United States. Superintendents, principals and teachers are encouraging this kind of correspondence as it is educational in many cases, said Superintendent W. Karl Hopkins of the Ogden city schools.

619 West Washington Ave., Du Bois, Pa.

December 12, 1922.

To the Pupils of the Eighth Grade.

Dear Friends:

Our English teacher has decided that we should write to different places and tell them about our city, so I chose your city.

Du Bois is located in Clearfield county. It is about 120 miles from Pittsburgh and 160 miles from Buffalo. It is situated in the heart of a rich soft coal region and has an abundance of good, cheap coal. It is also well supplied with natural gas, electricity and good water.

John Rumbarger and John Du Bois founded the city. It became a city in about 1881 and about 1889 the town was almost totally destroyed by fire.

There are about 33 miles of streets and about 40 miles of alleys in the city. Of this amount about 9 miles of streets are paved and 1 mile of alley is paved.

The water in the city is about 33 miles long. The water is pure and it comes from a reservoir.

There is a first class postoffice in Du Bois.

CITY OF CHURCHES.

There are about 23 churches in the city and most of these are located near the heart of the city.

Du Bois has a public library and a number of school libraries.

There are eight schools in Du Bois, five public grade schools, a high school, a parochial school and a business college.

There are three banks in Du Bois. They are: Deposit National bank, founded in 1880. The Union Banking & Trust Co., founded in 1900, and the Du Bois National bank, founded in 1904. There are many stores in Du Bois.

There are 16 factories, some are small and some are large. There are three theatres in Du Bois. They are: The Avenue, the Carlton and the Empire.

There are five hotels in Du Bois: Hotel Logan, Commercial, Du Bois, Fort Worth and the St. James.

This is all that I can tell you for now, write and tell us something about your city which you live.

Yours truly,  
J. E. ARKALONIS.  
OGDEN, UTAH.  
2827 Pinyon Ave.,  
Ogden, Utah,  
December 26, 1922.

Dear Friend:

It is a great pleasure in answering your letter, to be able to present to you some facts concerning our city, the city in which westerners like so much pride.

Ogden is located in a spacious rocky mountain valley. It is bordered on three sides by mountains and on one side by the dead sea of America, known to the world as the Great Salt Lake.

The climate here is one of the best and most healthful four seasons in the world. Government reports show that the death rate in this county is the lowest in the nation. The soil is especially fertile as Ogden is located on a delta built by Lake Bonneville, an ancient inland sea, which once filled the valley. The climate and soil are suitable for the raising of all kinds of fruits, grains and vegetables.

Our pioneer pioneers were the first permanent settlers in Ogden, although trappers and hunters had roamed this valley in earlier days. Ogden received her name from Peter Skeen who was the first early trapper.

Mr. Ogden established a trading post here and it was for him that the river, the valley and the city were named. Another of the explorers of the valley was Jim Bridger. He met the pioneers on their way up the country, described the valley as containing nothing but sagebrush and rattlesnakes, and offered them \$1000 for the first bushel of corn raised here, so sure was he that this valley was a barren desert. The pioneers, however, saw great possibilities and through skillful management they raised Ogden and the valley surrounding the city to the position it now holds.

EARLY HARDSHIPS.

Besides the ordinary hardships incident to pioneer life our settlers had to contend with the savage and red men. Many women chose to work with their husbands in the fields as they were in constant fear of visits from the Indians. Often the unsuspecting housewife found herself face to face with a burly redskin who had slipped in unawares and stood with his back against the door, where he remained until his demands for food or clothing were satisfied.

Time and hard work have developed many wonderful industries in our city. Ogden now ranks first as a manufacturing and railroad center of the intermountain country. A popular saying in this locality is that you can't get anywhere without coming to Ogden. This saying is in some respects true for most of the important railroads of the western United States pass through the city, while several smaller roads help to make Ogden an important center.

It might be interesting to know that the Union Pacific and the Central Pacific railroads, which united the east with the west, were joined at Ogden.

Ogden has also been growing rapidly as a manufacturing center. In the last 25 years a great many industries have been developed, among which are the milling, canning, sugar, cement and livestock industries. Foremost among these is milling. All grain shipped in the intermountain country comes to Ogden. The storage capacity of our mills is 2,500,000 bushels. Ogden's factories are able to turn out 6,000 barrels of flour daily, besides cereals and stock foods. This industry is the greatest of its kind in this part of the country and Ogden is rapidly becoming known as the Minneapolis of the west. It might be interesting to know that 20 years ago Ogden grocers sold California butter.

### HOLIDAYS CAUSE DECREASED OUTPUT

EUREKA, Dec. 30.—One product in carload lots from the Tintic district for the week ended last night was 115 carloads, compared to 133 carloads for the prior week. The holiday layoffs caused the decrease.

Mines and the number of carloads shipped by each follows: Chief Consolidated, 27; Tintic Standard, 1; Dragon, 15; Iron Blossom, 12; East and Blue Bell, 10; Victoria, 6; Colorado, 5; Alaska, 2; Tintic Drain Tintic, 2; Centennial Eureka, 1; Bull Beck, 1; Mammoth, 1; American Star, 1; George Castleton, 1; Iron King, 1; Empire Mines, 1. Total, 115 carloads.

### CALIFORNIA RANGE WILL BE STUDIED

Harry E. Malmsten, grazing examiner, has been detailed to work with the Great Basin Experiment station, near Ephraim and at present the faculty of the University of California in range investigation studies in California.

He will leave for Berkeley, Cal., Monday and expects to be gone until June 1. He will assist Dr. Sampson in investigating the problem of reseeded ranges adjacent to the Sacramento valley and the San Joaquin valley.

Different prices paid for animals for one large zoo were as follows: \$19,000 for a male giraffe; and Indian rhinoceros, \$5,000; American lion valued at about \$100; a bear, chimpanzees, from \$300 to \$1500; a baby orang-outang \$500.
